

ENVIRONMENTAL POLICY

Avis Budget Group aims to be a role model in our industry in managing environmental issues. We cooperate across national borders to develop initiatives to ensure we achieve our environmental targets.

Our main priorities are to:

- Further develop our environmental car fleet
- Maintain the work of reducing CO₂ and NO_x emissions from our operations
- Set environmental requirements on all our suppliers, especially with regards to chemical usage
- Find solutions that contribute to reduced amounts of resource use and waste from our operations
- Comply with laws and regulations and our own environmental goals and activities
- Maintain our work with ISO 14 001 and focusing on continuous improvement
- Be involved in environmental issues that protect the environment and prevent pollution
